

1/72 Northrop **MX.324**

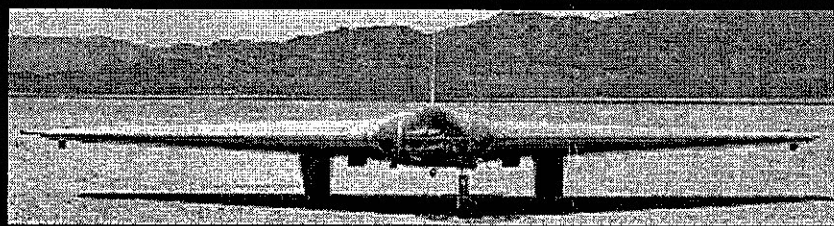

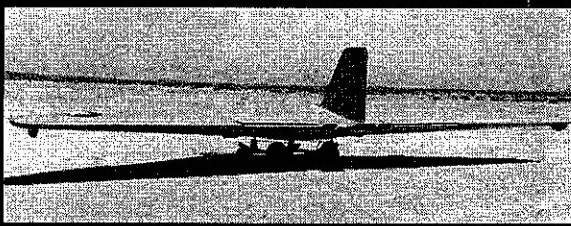

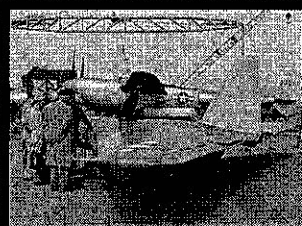

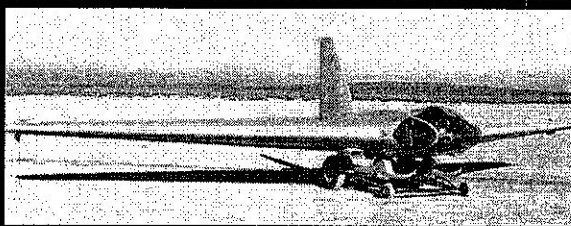

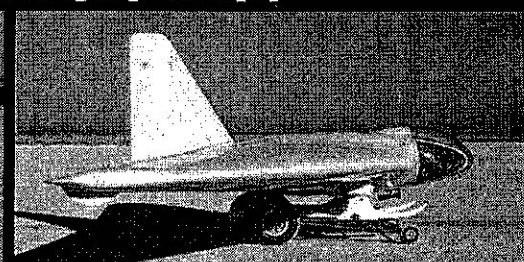

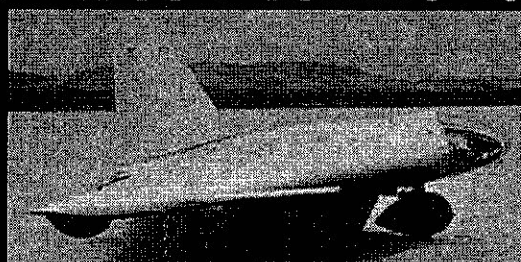

The MX.324 was the first USA military aircraft with rocket propulsion.
The pilot was in prone position.
Once ignited, the rocket engine expended the fuel in three minutes, then the aircraft flew like a glider.

ROLLOUT: 1944 WINGSPAN: 9,75 m LENGTH: 3,65 m
MAX SPEED: 560 km/h WEIGHT: 1.134 kg ARMAMENT : NA
