N.B.—For painting, use Airfix Paints. For fixing bases of figures to platform, use Evo-Stik "Impact" adhesive.

TO ASSEMBLE: Press together axles and locations, weighing machines and bases, cases and tops, 2 trolley front axles, 4 churns, 2 case bodies, 2 case tops, 2 barrel halves. (TOTAL 55 parts.)

CONTENTS: 24 figures, 4 machines, 2 bases, 1 electric truck, 4 truck bodies, 8 standard axles, other accessories to allow the modeller to build complete towns and villages.

The Airfix *Trackside Series* has been designed in HO & OO Scale (4mm. to the foot) and consists of an increasing range of exact and accurate models of Houses, Railway Buildings, and other accessories to allow the modeller to build complete towns and villages.

To complete model, cut out and stick dials on to weighing machines, as shown in illustration. TRUCK, TRAILERS, TROLLIES & MACHINES: GREEN CASES & BARREL: BROWN FIGURES: AS DESIRED
