AIRWAVES

HARRIER GR.5 SEATS

Martin Baker Type 12H

These seats are manufactured from polyurethane resin and prior to use all flash, seams and excess resin should be removed with either a sharp blade and/or rubbing down on wet wet and dry paper. Prior to painting prime with matt finish enamel. To fix use either superglue or 5 minute epoxy.

Artwork by Keith Melville who would like to thank Del Holyland of Martin Baker for his assistance in supplying information.
