Master of the skies, the vaunted F-15 "Eagle" is the powerful successor to the famed F-4 "Phantom II".

The sleek "Eagle" is capable of speeds in excess of Mach 2.5 at altitudes of 60,000 feet. The aircraft is powered by twin afterburning Pratt & Whitney F-100-PW-100 turbofan engines that produce in excess of 25,000 pounds of thrust. Endowed with this power, the F-15 possesses not only incredible maneuverability, but the ability to exceed the speed of sound in a vertical climb!

READ THIS BEFORE YOU BEGIN

- Study the assembly drawings.
- Each plastic part is identified by a number.
- Check the fit of each piece before cementing in place.
- Do not use too much cement to join parts.
- Use only cement for polystyrene plastic.
- Model may be painted to match photos on box.
- Allow paint to dry thoroughly before handling parts.
- Scrape paint from areas to be cemented.
- For better paint and decal adhesion, wash the plastic parts in a mild detergent solution. Rinse and let air dry.

**LISEZ CE QUI SUIT AVANT DE COMMENCER
LE MONTAGE**

- Etudier les schémas d'assemblage.
- Chaque pièce plastique porte un numéro d'identification.
- Contrôlez que chaque pièce soit bien conforme avant de la coller à sa place.
- N'utilisez pas trop de colle pour reunir les pieces.
- Utilisez uniquement une colle spéciale pour polystyrène.
- Le modèle peut être peint conformément aux photos sur la boîte.
